**INTEGRAL EQUATIONS FOR THE STURM-LIOUVILLE FUZZY
PROBLEM WITH THE EIGENVALUE PARAMETER IN THE
BOUNDARY CONDITION**

HÜLYA GÜLTEKİN ÇİTİL

ABSTRACT

In this paper is studied the Sturm-Liouville fuzzy problem with the eigenvalue parameter in the boundary condition. The eigenvalues and the eigenfunctions of the worked problem is examined and integral equations of the problem are found. In this study, Hukuhara differentiability is used.
